

# EXECUTIVE SUMMARY

The Impact Prism™ Resilience Diagnostic

**Your organisation's fastest path to clarity, commercial resilience, and strategic alignment.**

---

## The New Resilience Mandate

### Why Leaders Choose the Diagnostic

Global volatility, regulatory shifts, supply-chain fragility, and rising talent expectations are reshaping what “business performance” means. Organisations that thrive are those that embed **resilience as a strategic capability** — not a compliance task or a sustainability add-on.

Yet most executive teams lack a unified view of where resilience sits across the business. Data is fragmented. Ownership unclear. Risks invisible. Opportunities underleveraged.

**The Impact Prism™ Resilience Diagnostic solves this in one week.**

**In just five days, you receive:**

- A clear, evidence-led **Resilience Scorecard**
- Identification of **your top 5 blindspots**
- A structured **Resilience Maturity Assessment**
- A **90-day action plan** aligned to commercial, operational, and regulatory priorities
- A **board-ready narrative** built on data, not opinion

This is the fastest way to create alignment, accelerate decision-making, and build organisational confidence.

## What You Get

# 1. The Impact Prism™ Scorecard (Sample Output)

*A simple, executive-ready snapshot of your organisation's resilience today.*

## **Maturity Level: Emerging**

### **Commercial Advantage**

- Margin exposure related to supply-chain instability
- Growth opportunities underleveraged
- Reactive cost management cycles

### **Reputation & Brand**

- Strong customer trust
- Weak internal narrative
- Rising stakeholder expectations

### **Regulation & Compliance**

- Upcoming reporting obligations not fully mapped
- Limited data auditability
- High exposure to EU due-diligence requirements

### **Top 3 Pressure Points**

1. Unmapped supply-chain exposure (Tier 1–3)
2. Data governance weaknesses affecting future reporting readiness
3. Employee understanding of organisational resilience is low

### **90-Day Focus Areas**

- Establish an enterprise risk & resilience register
- Strengthen ESG data controls in two core markets
- Roll out a clear resilience narrative for internal teams

## 2. Illustrative Case Snapshot

Impact Prism™ in Action (Composite Example Inspired by Your Use Case)

### Context

A high-growth African fintech preparing for EU expansion and upcoming IFRS-aligned sustainability reporting sought clarity on its regulatory readiness and operational resilience.

### What the Diagnostic Revealed

- Fragmented ownership across Risk, Finance, and Sustainability
- High exposure to ESRS and due-diligence requirements
- Material financial risks not yet visible to senior leadership
- Employee engagement on resilience was low

### How Impact Prism™ Shaped Their Strategy

- Translated complex regulation into a strategic decision tool
- Aligned the C-suite around a unified risk, opportunity, and compliance narrative
- Integrated resilience thinking into Finance, Risk, and Operations
- Built a double-materiality map to guide investment and reporting

### What Changed (in 90 Days)

- A board-approved resilience roadmap
- Updated investor communications
- ESG and risk functions embedded shared KPIs
- An internal learning campaign launched to increase readiness
- Elevated organisational confidence & external credibility

### Strategic Impact

The company repositioned itself from reactive compliance to **proactive commercial resilience**, strengthening investor trust and securing competitive advantage in EU markets.

*(This example is anonymised and illustrative of typical outcomes.)*

## 3. The One-Week Process

### DAY 1 — Executive Alignment

A C-suite session to identify pressures, ambitions, constraints, and the resilience definition relevant to your business.

### DAY 2 — Stakeholder Interviews

Deep-dive conversations across Finance, Ops, HR, Product, Sustainability & Comms to surface blindspots and barriers.

### DAY 3 — Scoring & Maturity Assessment

Application of the Impact Prism™ framework & Desk-based research across Commercial Advantage, Reputation & Brand, and Regulation & Compliance.

### DAY 4 — Opportunity Mapping

Translation of insights into value levers linked to commercial performance, narrative strength, governance, and future-proofing.

### DAY 5 — Executive Readout

A board-ready summary including your scorecard, maturity level, priority actions and a 90-day roadmap.

## Why Organisations Start Here

- Accelerates senior alignment
- Turns fragmented data into a single strategic view
- Gives CFOs clarity on what to fund — and what not to
- Helps CEOs communicate confidently to boards and investors
- Prepares organisations ahead of FY planning, audits, and tenders
- De-risks growth, expansion, and regulatory exposure
- Creates momentum for long-term transformation

## Who This Is For

- CEOs driving transformation or market expansion
- CFOs preparing for capital raises or investor conversations
- COOs responsible for operational continuity and supply-chain resilience
- HR & People leaders navigating culture and capability shifts
- Sustainability/Impact leaders needing cross-functional alignment
- Strategy, Risk, or Compliance leaders facing new regulatory demands
- CPOs growing ethical supply chain practises and managing cost effective decarbonisation.

## Your Next Step

Strengthen your organisation's resilience and unlock commercial advantage.

The Impact Prism™ Resilience Diagnostic gives you **clarity, confidence, and a strategic path forward in just one week.**
